

House of Hydro-Meteorological Instruments

Anemometer Cup Counter

(IS 5912-1970)

The Anemometer Cup Counter is used for measuring the wind speed.

Thermometer Screen (Small)

(IS 5948-1970)

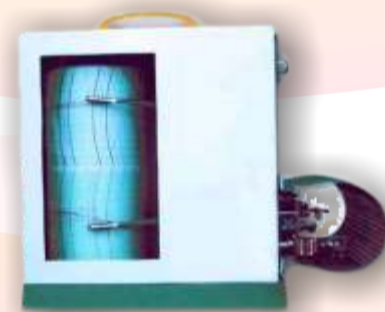

Used for housing Thermometers, Thermograph, Hygrograph made from teak-wood.

Sunshine Recorder

(IS 7243-1974)

Used for measuring sun radiation intensity

Thermograph Hydrograph

(IS 5901-1970)

(IS 5900-1970)

Used for measuring & analyse Temperature & Humidity on charts.

Ordinary Raingauge

(IS 5225-1969)

Used for measuring rain fall using measuring Cylinder

Automatic Raingauge

(IS 5235-1969)

Used for measuring rain fall & draw a plot on chart.

Tipping Bucket Raingauge

Used for measurement of rainfall & digitally data logged in counter / datalogger.

Other Meteorological Instruments

Max., Min., Dry & Wet Thermometers
Soil Thermometers
Windvane, Pan Evaporimeter,
Cards/Charts for all instruments

House of Hydro-Meteorological Instruments

Water Current Meter

Used to measure water flow & calculate total discharge of water flowing through rivers & open canals.

Water Current Meter Datalogger

Used with Water current meter to measure & store data along with Date & Time with PC interface.

Crane(Type-A) Bridge Outfit

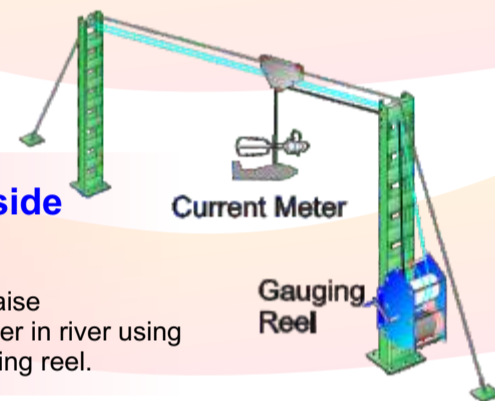

(IS 6064-1971)

Used to lower & raise Water current meter from bridge in river.

River Bank side Cable way

Used to lower & raise Water current meter in river using cable way & gauging reel.

USD-48 Sediment Sampler

Used for collecting sediment samples in river (high water flow)

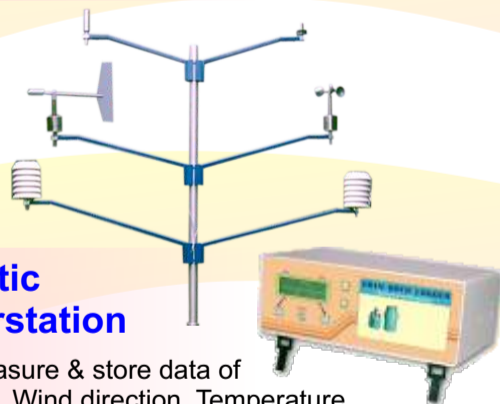

Automatic Water Level Recorder

Used for measuring & plot chart of water level using float in pond, lake.

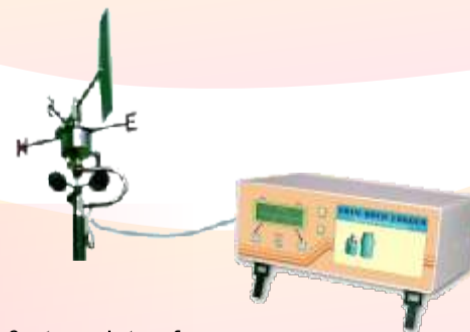

Automatic Weatherstation

Used to measure & store data of Wind speed, Wind direction, Temperature, Humidity, Atmospheric Pressure, Rainfall.

Wind Datalogger

Used to measure & store data of Wind Speed & Wind direction along with Date-time.
